The following analysis of the New York market situation was received yesterday by W. B. Hibbs & Co. from Logan & Bryan, their New York correspondents: "The session was devoted almost entirely to coppers and steel. Irregularity prevailed in other directions, the same being induced primarily, no doubt, by the shur, and excited rise in United States Steel, which apparently has ex-ceeded the expectations of the bull crowd.

Steel and Copper

Reign Supreme

The Country's presperity is new measured by steel and copper, their position being practically identical as relates to high prices for the metals, due to a far greater demand than supply.

While the spurm in prices of steel and copper has been reflected in the stock market, the consensus of opinion is that still higher levels are yet to dome, logically warranted by the huge carnings of the various companies.

The mottoes are either "Fulmus" or "Do well and doubt not." There seems to be no proof of royal descent.

I. H. T. writes thus: Please give me what information you can of the Tarp-ley family. By this I mean the lineage, social rank, coat-of-arms, motto, colors etc. This family was one of the first families of Virginia, having resided in the southern part of that state moving from there to Tennessee about 1850."

The coat-of-arms of this family which appears to be of English origin is described thus: "Argent a fess scotised gules, between six hurts." Unfortunately the record of the Vir-ginia family of the name is not avail-(Copyright, 1916.)
